

July 31, 2014,

Dear valued customer:

During the regular monthly board meeting on June 26, 2014, the decision was made to increase the water rates to a tiered rate schedule. This tiered system will not affect most standard residents on the system. The decision was made to aid in the infrastructure upgrades needed throughout our entire system. To ensure CCWSD can complete the upcoming plans to repair our plant sites, upgrade trunk lines, and locate other water sources to meet our growing needs, we are scheduled to implement the rate change September 1, 2014. The tier is as follows:

0 -10,000 gallons	\$3.50 per thousand
10,001 – 25,000 gallons	\$4.50 per thousand
25,001 – 40,000 gallons	\$5.50 per thousand
40,001 – 100,000 gallons	\$6.50 per thousand
100,000 and more	\$7.50 per thousand

We appreciate your understanding in our efforts to manage our systems assets and maintain water quality throughout our system. If you have questions regarding the rate schedule, feel free to call the office at (254) 865-6089.
